Dear Caroline,

Happy New Year, and thank you for your generous support of Junior Achievement of the Chisholm Trail. We had a successful fall semester, improving the economic mobility of young people across our area, helping them understand the myriad opportunities they have for a bright future!

Through our impactful JA learning experiences, we teach young people how to be smart with money, develop an entrepreneurial mindset, and prepare for post-secondary endeavors, whether that be college and/or career. Everything we do at JA aims to help young people learn how to make informed decisions so they're confident in their choice-filled futures.

We appreciate your contribution to Junior Achievement of the Chisholm Trail in the amount of \$7,500.00, which **ignites the spark in young people** to realize their dreams for a successful future can be a reality. We couldn't reach the tens of thousands of students we reach without the generosity of people like you who invest in the meaningful work we do.

Thank you for your unwavering commitment to our mission as we empower students with practical knowledge so they develop both the skillset and mindset to build thriving communities!

Cindy Hames
President

*Much appreciated!
Caroline!*
